In a world of relentless software upgrades and replacements, Cloud42™ USE drastically reduces your capital IT expenditure and smooths out your operational expenditure by allowing you to pay only when you need your software. When you look back at the pile of out-of-date software sitting on your shelf that cost good money at the time, Cloud42™ shines as the smart way to use the software you need.

Whether you need a private or hybrid SaaS environment, we can take care of migrating your IBM licensing to the cloud.

## FULLY CERTIFIED PARTNERS

Cloud42™ USE is backed by one of Australia's leading IBM Premier Business Partners, ISW. Uniquely certified across the IBM software range, ISW & Cloud42™ gives you access to IBM's full suite of leading enterprise software through a single business partner.

## ELIMINATE HIGH COSTS

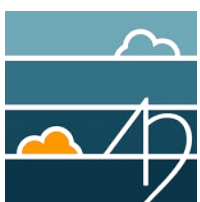

Switch extraordinary capital costs in favour of drastically reduced, smooth operational expenditure. Cloud42™ USE allows your organisation to pay only when your staff need a particular software application. - That can be even cheaper than annual subscription licensing!

## FREE UP RESOURCES

Reallocate resources currently tied up in IT administration on core business functions, new projects or simply reap the cost savings!

## + MANAGED SERVICES

ISW's team of cloud experts will enable your organisation to leverage and manage your cloud environments to ensure you get a solution built for you, with the support you need, when you need it.
